## **ZIGGY LUBIENIECKI CO-WINNER OF AMEC 2015 PROSPECTOR AWARD TO ASSIST HAMMER METALS IN A TECHNICAL AND TARGETING CAPACITY**

Hammer Metals Limited (ASX: HMX) is pleased to advise that the Company has further bolstered its exploration capability in the Mount Isa region with the appointment in a consulting capacity of highly regarded geologist, Mr Ziggy Lubieniecki, the co-winner of the AMEC 2015 Prospector Award.

Mr Lubieniecki played a leading role in the discovery of the world-class 5.6 million ounce Gruyere gold deposit held by Gold Road Resources Limited and is highly skilled at applying regional exploration targeting concepts through to hands-on project generation and testing.

Mr Lubieniecki is assisting Hammer's current geological team headed by Mr Mark Whittle to further advance the Company's understanding of the controls of the important mineralising events within and around Hammer's Mount Isa portfolio with a "top down" regional-scale targeting exercise.

The focus of Hammer's exploration in the Mount Isa region is on large iron oxide copper-gold (IOCG) deposits such as Glencore's Ernest Henry deposit (220 million tonnes at 1.1% Cu and 0.5g/t Au).

Hammer's exploration successes in recent years saw Hammer receive the 2015 Queensland Explorer of the Year award at the Mining 2015 Conference and now with securing the services of Mr Lubieniecki the Board of Hammer is confident of realising the mineral potential of its Mount Isa project through exploration excellence.
