

SALE OF MT ISA PROJECT INTEREST COMPLETED

25 November 2013. Santana Minerals Limited ('Santana') is pleased to announce that it has completed the sale of its subsidiary Mt Dockerell Mining Pty Ltd ('Mt Dockerell'), holder of Santana's Mt Isa projects, resulting in Mt Dockerell becoming a wholly owned subsidiary of Midas Resources Limited ('Midas'; ASX: MDS) and Santana being issued shares in Midas as consideration.

Completion follows Santana's original share purchase agreement with Hammer Metals Limited ('Hammer') (see ASX release 2 July 2013) and the subsequent agreement between Hammer and Midas for the acquisition of Hammer by Midas (see ASX release 10 September 2013). As a result, Midas now holds Hammer's exploration interests in the Mt Morgan and Mt Isa districts of Queensland and Mt Dockerell's Mt Isa projects. The Mt Dockerell projects include the Kalman Copper-Molybdenum Project (incorporating 51% of the Pelican JV – EPM13870); the Mt Philp Iron Project; and surrounding tenement portfolio.

At completion Santana received 2,040,000,000 Midas shares which are subject to a 12 month escrow from the date of issue.

Completion allows Santana to focus its financial and technical resources on its precious metals projects in Mexico whilst providing exposure to the Mt Isa projects through a shareholding in Midas and a royalty on the Mt Philp project. Further, it provides exposure to the existing projects owned by Hammer and Midas.
